

Material Safety Data Sheet

TRADE NAME: PECOSIL AS-16

Date of Preparation/Revision: 06/15/2010

Section 1 - Chemical Product and Company Identification

Product Name: PECOSIL AS-16
Chemical Name: Cetyl Dimethicone
CAS Number: 191044-49-2

Manufacturer: PHOENIX CHEMICAL, INC.
60 Fourth Street
Somerville, NJ 08876
Phone (908) 707-0232, Fax (908) 707-0186

CHEMTREC 24-HR EMERGENCY RESPONSE NUMBER:
1-800-424-9300
INTERNATIONAL CALLS: COLLECT
1-703-527-3887
CHEMTREC should only be called in the event of chemical emergencies involving a spill, leak, fire, exposure, or accident involving chemicals.

Section 2 - Composition / Information on Ingredients

| Ingredient Name | CAS Number | % wt or % vol |
|-------------------|-------------|---------------|
| Cetyl Dimethicone | 191044-49-2 | 85-90 |
| Hexadecene | 629-73-2 | 10-15 |

Trace Impurities:

| Ingredient | OSHA PEL | | ACGIH TLV | | NIOSH REL | | NIOSH IDLH |
|------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| | TWA | STEL | TWA | STEL | TWA | STEL | |
| None Known | none estab. | none estab. | none estab. | none estab. | none estab. | none estab. | none estab. |

Section 3 - Hazards Identification

☆☆☆☆☆ Emergency Overview ☆☆☆☆☆

Potential Health Effects

HMIS
H 1
F 1
R 0
PPE B

There are no potential health effects expected from handling this material. Good manufacturing practices are always recommended when handling any chemical.

A knowledge of the available toxicology information and of the physical and chemical properties of the material suggests that overexposure is unlikely to aggravate existing medical conditions.

This material is not registered with TSCA. This material is manufactured in accordance with the personal care exclusion as stated in the CFR. Material may be used for personal care uses only. Small quantities may be used for evaluation purposes for non-personal care use. Please contact Phoenix Chemical, Inc. for further information regarding the uses of this material for other than personal care applications.

There are no significant laboratory data to suggest any specific hazard to humans.

Inhalation: No irritation to respiratory passages are expected from relatively short exposures of less than 8 hours.

Eye Contact: Causes irritation, experienced as stinging and discomfort or pain. Redness and swelling may occur.

Skin Contact: Brief contact is not irritating. Prolonged contact may cause mild to moderate local redness and irritation.

Ingestion: May cause abdominal discomfort, nausea, vomiting and diarrhea.

Carcinogenicity: IARC, NTP, and OSHA do not list this product as a carcinogen.

Section 4 - First Aid Measures

Inhalation: Short-term harmful health effects are not expected from vapor-generated at ambient temperatures. If first aid is required, move victim to fresh air.

Eye Contact: May cause some mild eye irritation. Flush immediately with water for 15 minutes. Obtain medical attention if severe irritation occurs.

Skin Contact: May cause some irritation or discomfort. Remove contaminated clothing and wash with soap and water.

Ingestion: May cause abdominal discomfort, nausea, vomiting and diarrhea. Give two glasses of water. Do not induce vomiting. Obtain medical attention.

After first aid, get appropriate in-plant, paramedic, or community medical support.

PECOSIL AS-16

Section 5 - Fire-Fighting Measures

Flash Point: >100°C

Flash Point Method: CC

NFPA

Extinguishing Media: Use water spray, carbon dioxide, alcohol type or universal type foam applied in accordance with the manufacturer's instructions.

Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in pressure-demand or positive-pressure mode.

Section 6 - Accidental Release Measures

Safeguards (Personnel): Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean up.

Spill /Leak Procedures: Collect for disposal in accordance with applicable Federal, State, or local regulations.

Containment: For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.

Section 7 - Handling and Storage

Handling Precautions: (PERSONNEL) Safety glasses and PVC gloves.

Storage Requirements: Keep container tightly closed.

Section 8 - Exposure Controls / Personal Protection

Ventilation: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec.2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

Respiratory Protection: Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear an MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. For emergency or non-routine operations (cleaning spills, reactor vessels, or storage tanks), wear a SCBA.

Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

Protective Clothing/Equipment: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent prolonged or repeated skin contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are **not** eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

Section 9 - Physical and Chemical Properties

Physical State: Liquid

Appearance and Odor: Amber, characteristic odor

Vapor Pressure, mm Hg: N/D

Specific Gravity (H₂O=1, @ 25°C): 1.02

pH: N/D

Water Solubility: Insoluble

Boiling Point: N/D

Melting Point: N/A

Viscosity: 100 cps

Section 10 - Stability and Reactivity

Stability: product is **STABLE** at room temperature in closed containers under normal storage and handling conditions.

Chemical Incompatibilities: Strong oxidizing material can cause a reaction..

Products of Thermal Decomposition: Oxides of Carbon, Silicone.

Hazardous Polymerization: Will not occur.

PECOSIL AS-16

Section 11- Toxicological Information

Complete information not yet available.

Section 12 - Ecological Information

Complete information not yet available.

Section 13 - Disposal Considerations

Disposal: Contact your supplier or a licensed contractor for detailed recommendations. Follow applicable Federal, state, and local regulations.

Section 14 - Transport Information

DOT Transportation Data (49 CFR 172.101):

DOT Proper Shipping Name: Not regulated

DOT I.D. #: N/A

DOT Classification: N/A

UN Hazard Class: N/A

Section 15 - Regulatory Information

TSCA Inventory Status: Not Listed

EPA Regulations: SARA 311/312 Codes:

Acute: None
Chronic: None
Fire: None
Reactivity: None
Pressure: None

State Regulations:

| State | Component | CAS # | Wt. |
|-------|-----------|-------|-----|
| NONE | | | |

Section 16 - Other Information

Prepared by: PHOENIX CHEMICAL, INC.
