

## Shimmering Lipgloss

ARL-24-13-1

INGREDIENT:	INCI	Supplier	% W/W
<b>PHASE A :</b>			
PELEMOL® DP-144B	Dipentaerythrityl Tetrabehenate/Polyhydroxystearate	Phoenix Chemical, Inc.	83.25
PELEMOL® 6GPR	Polyglyceryl-6 Polyricinoleate	Phoenix Chemical, Inc.	11.95
PELEMOL® EC	Ethyl Canolate	Phoenix Chemical, Inc.	2.85
<b>PHASE B :</b>			
COVANOL RED OS NA 3075	CI 15850 (and) (and) Octyldodecanol (and) Sorbitan Oleate	Sensient Technologies	0.25
<b>PHASE C :</b>			
Sandream Sachet MV Blue	Synthetic Fluorphlogopite, Titanium Dioxide, Tin Oxide, Manganese Violet, Triethoxycaprylylsilane	Sandream Impact	1.70
Total:			100.00

PROCEDURE: In main vessel, combine Phase A with prop mixing and begin heating to 60°-65°C until uniform. Slowly add Phase B and mix until color is fully dispersed and batch is uniform. Reduce temperature to 55-60°C and add Phase C. Mix until uniform throughout. Pour into small pots.

INGREDIENT	FUNCTION
PELEMOL® DP-144B	100% vegetable derived ester. Adds body and gloss.
PELEMOL® 6GPR	100% vegetable derived. Good pigment dispersant and adds gloss.
PELEMOL® EC	100% vegetable derived, adds slip and emollience.
